

Tauheed Darekar

Full Stack Developer

✉ tauheeddarekar786@gmail.com 📞 9021492752 📅 2000 Oct 12 🌐 /tauheed-darekar 🏠 Github 🏠 Leetcode 🏠 Geeksforgeeks

PROFILE

Full Stack Developer with **2+ years of experience** building scalable web applications using **React, Nodejs and Nestjs**. Specialised in **performance optimisation, API Design** and production grade systems **handling high user traffic**. Experienced in **improving system efficiency**, reducing **response times** and building clean maintainable code for real world products.

WORK EXPERIENCE

- Full Stack Developer**, Successive Technologies 2025 Sep – Present | Pune, India
- Developed core features for a **Learning Management System (LMS)** improving course delivery workflows.
 - Led and Developed a **Full stack feature used by 1,000 users**, improving workflow efficiency
 - Resolved **multi-lingual sorting issues** using **database collation and indexing**, ensuring correct ordering across languages.
 - Reduced **API Response time by 40%** by optimizing queries and adding **database indexing**.
 - Reduced **Frontend Load time by 30%** by eliminating redundant API calls and reusing shared components.
- Software Engineer 1**, Parkar Digital 2024 Feb – 2025 Jul | Pune, India
- Designed and implemented **Node.js microservices architecture** for scalable backend services.
 - Developed backend APIs using **NestJS** following **SOLID principles**.
 - Built performant UI components using **React Hooks, Context API, and modern best practices**.
 - Implemented **Next.js SSR and lazy loading**, improving SEO and initial page load performance.
- Software Development Engineering Intern**, Thinkseed Systems 2023 Jun – 2023 Dec | Bangalore, India
- Developed Node.js backend with AES-256 encryption.
 - Wrote 50+ Jest unit tests achieving 95%+ coverage.

PROJECTS

- "Resumatic: AI-Powered Resume Builder with ATS Optimization" [🔗](#)
- Full-stack development** using **React + NestJS**, integrating NLP for **ATS optimization**.
 - Utilized **Axios interceptors** and **React Query** for efficient API request handling and caching.
 - Implemented **form validation** using **Yup + Formik**, ensuring robust input handling and error feedback.
- Expense Analytics Platform(Event Driven Reporting System)** [🔗](#)
- A **System** designed to track the daily expenses of a user.
 - Designed an **event-driven reporting module** that processed monthly budgets and generated category-wise analytics.
 - Used **Chart.js** for visualizing expense trends and pie charts for category breakdowns.
- Conversational AI Platform with Context-Aware Responses** [🔗](#)
- Built using **React + Node** and implemented **context API and custom hooks** for global state management and reusability.
 - Enhanced UI responsiveness using **Tailwind CSS** and **React Toastify** for notifications.

SKILLS

- | | |
|---|---|
| Programming Languages:
JavaScript, Typescript | Version Control
Git, Github, Bitbucket |
| Database
MySQL, MongoDB, PostgreSQL | Development Environment
Visual Studio |
| Backend:
Node.js, NestJS, ExpressJS, RESTful APIs, GraphQL | Frontend:
HTML, CSS, ReactJS, NextJS Bootstrap, Tailwind CSS, Shadcn UI, Ant Design |
| Cloud
Azure Services, CI/CD Pipelines, Azure DevOps, Infrastructure-as-Code (Azure Bicep), AWS Serverless Stack, AWS Lambda | Testing
Jest |

EDUCATION

- Masters of Technology in Computer Science and Engineering**, 2024 | Goa, India
National Institute of Technology Goa
- Bachelors of Engineering in Computer Science and Engineering**, 2022 | Pune, India
Trinity Academy of Engineering

CERTIFICATIONS AND ACHIEVEMENTS

- Microsoft Certified AZ-900 [🔗](#)
- AI A-Z 2024: Build 7 AI + LLM & ChatGPT
- AIR 1375 in Gate 2022
- "Shootout Superstar Award" – twice for outstanding technical contributions
- Microsoft Certified: Azure-204 [🔗](#)
